

New Illinois Facility Combined Two Plants & Corporate Headquarters into One Location

We are delighted to announce our new Illinois Division and Headquarters located just minutes away from our former facilities in Glendale Heights, IL. This new, larger facility offers a number of improvements over our prior locations including:

- Improved shop environment for our workers and finished products alike
- 50% increase in shop floor space providing significant room to grow
- Uniting two prior locations under one roof to improve quality & production supervision

From the combined operations of our former Illinois locations, and the relocation of machinery from the recently completed asset acquisition of another screw machine company, the new Illinois operation now has over 120 machines. Our diverse mix of Davenports, Acmes, Brown & Sharpes, Hydromats, CNC, and secondary operations give us the capacity and breadth of capabilities to better serve the range of needs of our growing base of customers. Our new Illinois Division and Headquarters location is 1688 Glen Ellyn Road, Glendale Heights, IL 60139.

KKSP Precision Machining operates over 400 machines across 4 Divisions located in Glendale Heights, IL, Pleasant Prairie, WI, East China, MI, and Monterrey Mexico. All locations are TS 16949, ISO 9001 & ISO 14001 certified. For more information about us & how we might serve your needs for precision metal parts please visit www.kksp.com
